3D STREET FURNITURES

İSTON İstanbul Beton Elemanları ve Hazır Beton Fabrikaları San. ve Tic. AŞ İstanbul Büyükşehir Belediyesi tarafından kentin altyapı ve üstyapı ihtiyaçlarına kaliteli çözümler getirmek amacıyla 1986 yılında kurulmuştur. İstanbul'un yanı sıra Türkiye'nin diğer kentlerinde de ürünleri tercih edilen İSTON, dünyanın farklı ülkelerine ihracat yapmaktadır. İSTON beton ve betonarme boru, parketaş ve bordür, hazır beton, prefabrik yapı elemanları, kent mobilyaları üretiminin yanı sıra mimari tasarım, kentsel proje uygulama, taahhüt ve yapı denetim hizmetleri de vermektedir.

Türkiye'nin en büyük şirketleri arasında yer alan İSTON, kamu kuruluşları ile birlikte özel sektöre de ürün satışı yapmaktadır. Üretim teknolojisi, ürün çeşitliliği ve yüksek kalite standartlar ile İSTON, yapı sektörünün öncü kuruluşlarından biridir.

ISO 9000 Kalite Yönetim Sistemi Belgesi'ne sahip olan İSTON, bütün üretim faaliyetlerini TSE Kalite Standartları'na uygun olarak yapmaktadır. Kalitenin sürekli denetim altında tutulduğu İSTON laboratuvarları, TÜRKAK tarafından uluslararası akreditasyona sahip olması sebebiyle yapı sektörü ve üniversitelerin bilimsel deney taleplerini de karşılamaktadır.

İSTON tüm faaliyetlerini İş Sağlığı Güvenliği Yönetim Sistemi, Çevre Yönetim Sistemi, Kalite Yönetim Sistemi, Bilgi Güvenliği Yönetim Sistemi ve Kalite Laboratuvar Yönetim Sistemi'ne uygun olarak gerçekleştirmektedir. Sürdürülebilir bir gelişim modelini kurumsal ilke olarak benimseyen İSTON, üretim tesislerinden Hadımköy Fabrikası'nda Platin Sertifika, Tuzla Fabrikası'nda Gümüş Sertifika olmak üzere Uluslararası Beton Sürdürülebilirlik Konseyi (CSC) belgelerine sahiptir.

AR-GE ve tasarım çalışmaları ile kentsel yaşama ve yapı sektörüne yeni ürün ve teknolojiler kazandıran İSTON, sanayi ve akademi iş birliği kapsamında ulusal ve uluslararası projeler de yürütmektedir.

Kente estetik, fonksiyon, konfor ve kalite olarak değer yaratma misyonu ile çalışmalarını yürüten İSTON, geleceğin kentleri ile uyumlu ürün ve tasarımlar ortaya koymaktadır. 2019 yılı itibarıyla yeni nesil belediyeçilik anlayışı ile tasarım ve teknoloji olarak kentsel ürün ve hizmetlerine yeni boyutlar kazandıran İSTON, 3D Beton Yazıcı teknolojisi ile geliştirdiği kent mobilyaları, konut ve ofis yapıları ile Türkiye'de yapı sektörü için dijital dönüşümü başlattı.

3D yapı teknolojisini özgün tasarım çizgileri ile buluşturan İSTON, kentin farklı coğrafi ve kültürel alanları ile uyumlu ve kent kimliğini destekleyen ürünler ortaya koymaya devam etmektedir.

Kentsel alt yapı ve üst yapının inşası için kullanılan 2000'i aşkın ürün çeşidi ile yapı sektöründe dünyanın bu alandaki önemli kuruluşlarından biri olan İSTON, yeni ürünler ve faaliyet alanları ile sektördeki hacmini genişletmektedir. İstanbul Büyükşehir Belediyesi'nin bir kuruluşu olarak İSTON, katılımcı ve şeffaf yönetim anlayışı ile kentlinin beklentilerini, ihtiyaçlarını iç ve dış dinamikleri ile geniş bir çerçeveden ele alarak çözümler üretmektedir.

İSTON, İstanbul Büyükşehir Belediyesi'nin 'Yeni Nesil Belediyeçilik' anlayışını destekleyen faaliyetleri ile şehirlerde fark yaratmaya devam etmektedir. İSTON Türkiye Hazır Beton Birliği ve Türkiye Prefabrik Birliği üyesidir.

İSTON İstanbul Concrete Elements and Ready Mixed Concrete Factories Co. was established in 1986 by the Istanbul Metropolitan Municipality in order to bring quality solutions to the infrastructure and superstructure needs of the city. İSTON, whose products are preferred in other cities of Türkiye as well as Istanbul, exports to different countries of the world.

In addition to the production of concrete and reinforced concrete pipes, paving stones (borders) and curbs, ready-mixed concrete, prefabricated building elements, urban furniture, İSTON also provides architectural design, urban project implementation, contracting and building inspection services.

İSTON, which is one of the largest companies in Türkiye, sells products to the private sector as well as public institutions. With its production technology, product variety and high quality standards, İSTON is one of the leading companies in the construction sector.

Having ISO 9000 Quality Management System Certificate, İSTON carries out all its production activities in accordance with TSE Quality Standards. İSTON laboratories, where the quality is constantly kept under control, also meet the scientific experiment demands of the building sector and universities due to its international accreditation by TURKAK.

İSTON carries out all its activities in accordance with the Occupational Health and Safety Management System, Environmental Management System, Quality Management System, Information Security Management System and Quality Laboratory Management System. Adopting a sustainable development model as a corporate principle, İSTON holds the International Concrete Sustainability Council (CSC) certificates, including Platinum Certificate in Hadımköy Plant and Silver Certificate in Tuzla Plant, one of its production facilities.

Bringing new products and technologies to urban life and the building sector with its R&D and design studies, İSTON also carries out national and international projects within the scope of industry and academia cooperation.

Working with the mission of creating value for the city in terms of aesthetics, function, comfort and quality, İSTON reveals products and designs that are compatible with the cities of the future.

As of 2019, İSTON, which has brought new dimensions to urban products and services in terms of design and technology with a new generation municipality understanding, has started the digital transformation for the construction sector in Türkiye with the urban furniture, residential and office structures developed with 3D Concrete Printer technology. Combining 3D building technology with original design lines, İSTON continues to produce products that are compatible with the different geographical and cultural areas of the city and that support the urban identity.

With more than 2000 product types used for the construction of urban infrastructure and superstructure, İSTON, one of the important companies in the world in this field, is expanding its volume in the sector with new products and fields of activity.

As an organization of the Istanbul Metropolitan Municipality, İSTON produces solutions by addressing the expectations and needs of the citizens from a wide framework with its internal and external dynamics, with its participatory and transparent management approach.

İSTON continues to make a difference in cities with its activities that support the concept of "New Generation Municipalism" of Istanbul Metropolitan Municipality. İSTON is a member of Turkish Ready Mixed Concrete Association and Turkish Prefabricated Association.

3D BETON YAZICI ÜRETİM TEKNOLOJİSİ

3D yazdırılabilir beton üretim teknolojimiz; ülkemiz için ilk olma özelliğiyle birlikte, ülkemize ve sektörümüze küresel rekabet gücü kazandırma niteliğindedir. Ayrıca, yapı sektörünün, çağımızın yeni endüstriyel dönüşümü olan dördüncü sanayi devrimini Endüstri 4.0 ve Dijitalleşmeye hızlı bir şekilde uyum sağlamasına, inşaat sektöründe dijital dönüşümü ve sektörün teknoloji ile buluşmasına doğrudan hizmet etmektedir.

Betonun dijital olarak bir ürüne dönüştürülebilmesi ve üretim/yapım süreçlerinde işçilik, kalıp, taşıma ve yerleştirme gibi önemli ihtiyaçlar büyük oranda ortadan kaldırılması sebebiyle, üretim maliyetlerini önemli ölçüde azaltmakta ve ürünlerin uygun maliyetlerle katma değer oluşturma potansiyelini arttırmaktadır.

Bu özel katalog ve içerisindeki yeni tasarımlar, ülkemizde henüz yeni konuşulmaya başlanılan "İnşaat Sektöründe Dijital Dönüşüm" konusu için çok önemli bir başlangıç olacaktır. Kalıp ve işçilik maliyetlerinde ve kullanılan beton malzeme sarfiyatında tasarruf sağlayan bu teknoloji, kent mobilyaları üretiminde de oldukça avantaj sağlamaktadır. Kalıplı imalatlarla üretilmesi çok zor tasarımların da hayata geçirilebildiği üstün mimari serbestlik sağlaması bu teknolojinin en önemli çıktılarından bir diğeri olmuştur.

Our 3D printable concrete production technology; With the feature of being the first for our country, it is in the nature of providing global competitiveness to our country and our sector. In addition, it directly serves the construction sector to adapt quickly to the fourth industrial revolution, Industry 4.0 and Digitalization, which is the new industrial transformation of our age, to digital transformation in the construction sector and to the meeting of the sector with technology.

This technology, which provides savings in mold and labor costs and the consumption of concrete materials used, also provides a great advantage in the production of urban furniture.

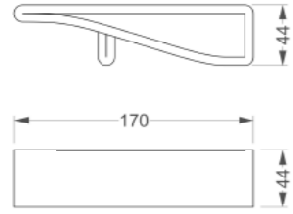

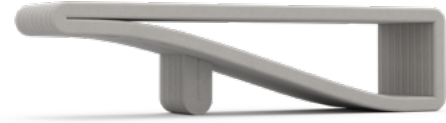

3D BANKLAR 3D BENCHES

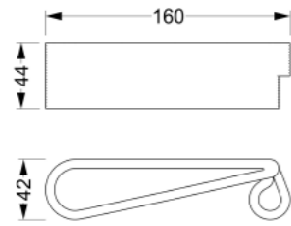

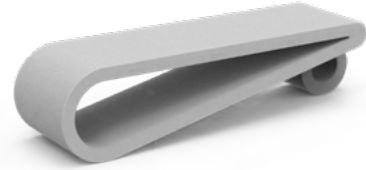

3D İSTON Banklar, yeni nesil tasarımları ile kent estetiğinin ve kentlinin konforunun gelişmesini amaçlamaktadır. Kentin minimal ve özel alanlarına özgü tasarımları daha çevreci ve hızlı üretebilmek için 3D üretim yöntemi önemli avantajlar sağlamaktadır.

With its new generation designs, 3D İSTON Benches aim to improve the urban aesthetics and the comfort of the citizens. 3D production method provides significant advantages in order to produce designs specific to minimal and private areas of the city in a more environmentally friendly and faster manner.

PET SERİSİ

PET SERIES

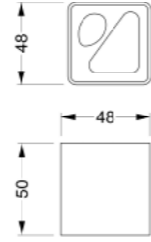

Kent yaşamı içinde barınma ve yaşama olanakları kısıtlanan sokak hayvanları için güvenli ve konforlu alanlar yaratmak için 3D Pet ürün grubunu geliştirdik. Sokak hayvanlarının kentin doğal bir parçası olarak konumlandırmak ve kentte hayvanların korunması bilincini geliştirmek üzere bu ürün grubumuzu tasarladık.

We have developed the 3D Pet product group to create safe and comfortable spaces for stray animals whose housing and living opportunities are restricted in urban life. We have designed this product group to position stray animals as a natural part of the city and to develop awareness of animal protection in the city.
