Smart Expo Sourcing

SMART EXPO combines both the online and offline expo experience.

This service utilizes **360°** panoramic displays, **3D** and **VR** to simulate the setting of the traditional offline exhibition hall.

In the **SMART EXPO**, buyers can feel the offline expo experience, contact suppliers directly, digitally sign a letter of intent as well as make payments without travelling to China.

Cooperation with Local Governments

Cooperation and access to local government channels and shared resources provides important advantages for Made-in-China.com to better serve its members.
