**MOBILE SHELVING
SYSTEM**

Welcome to SILESIA MEBLE!

Silesia Meble Sp. z o.o. company's activity is based on many years of experience in delivering interior design, transporting and deploying of storage systems and archiving solutions.

We aim to provide our customers with a comprehensive offer which includes all stages of order fulfillment, from the initial design to the delivery of furniture solutions made to perfectly fit your individual needs.

In this catalogue we would like to offer our [mobile shelving system](#) which we design to meet all your expectations. Our experienced team will help you choose the right solution tailored to your needs.

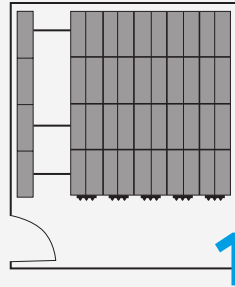

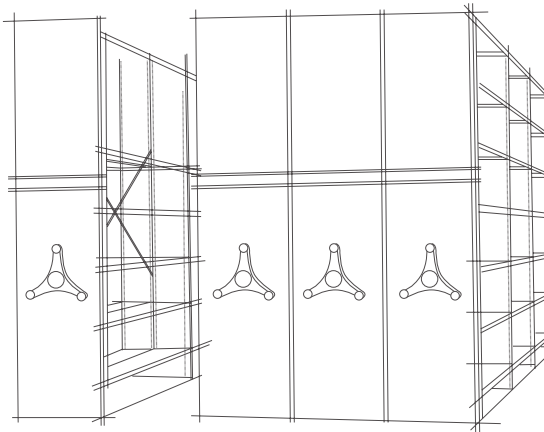

We invite you to contact us.

Chair of the Management Board

Mobile vs Static Shelving Systems

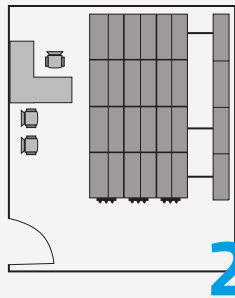

Presented below is a direct comparison of the mobile and static shelving racks using the same space with various arrangements.

Mobile Shelving

Sample specifications of mobile racks in a room

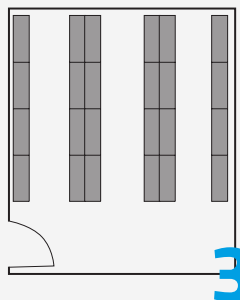

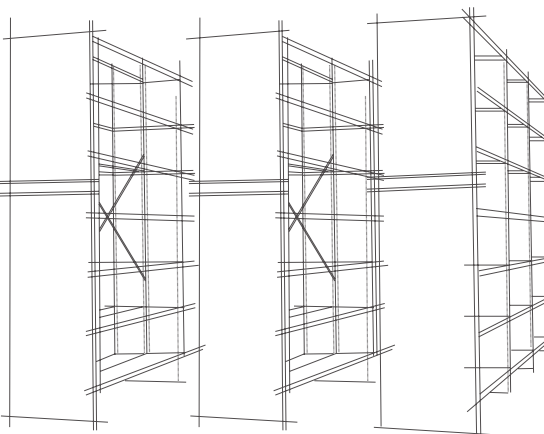

- working length: 4000 mm (4 x 1000 mm racks)
- 5 double sliding racks + 1 complementary stationary rack
- 6 vertical shelves + cover per section
- 264 running meters of usable space

Sample specifications of mobile shelving adapted to the office space

- working length: 4000 mm (4 x 1000 mm racks)
- 3 double sliding racks + 1 complementary stationary rack
- 6 vertical shelves + cover per section
- 168 running meters of usable space

Static Shelving

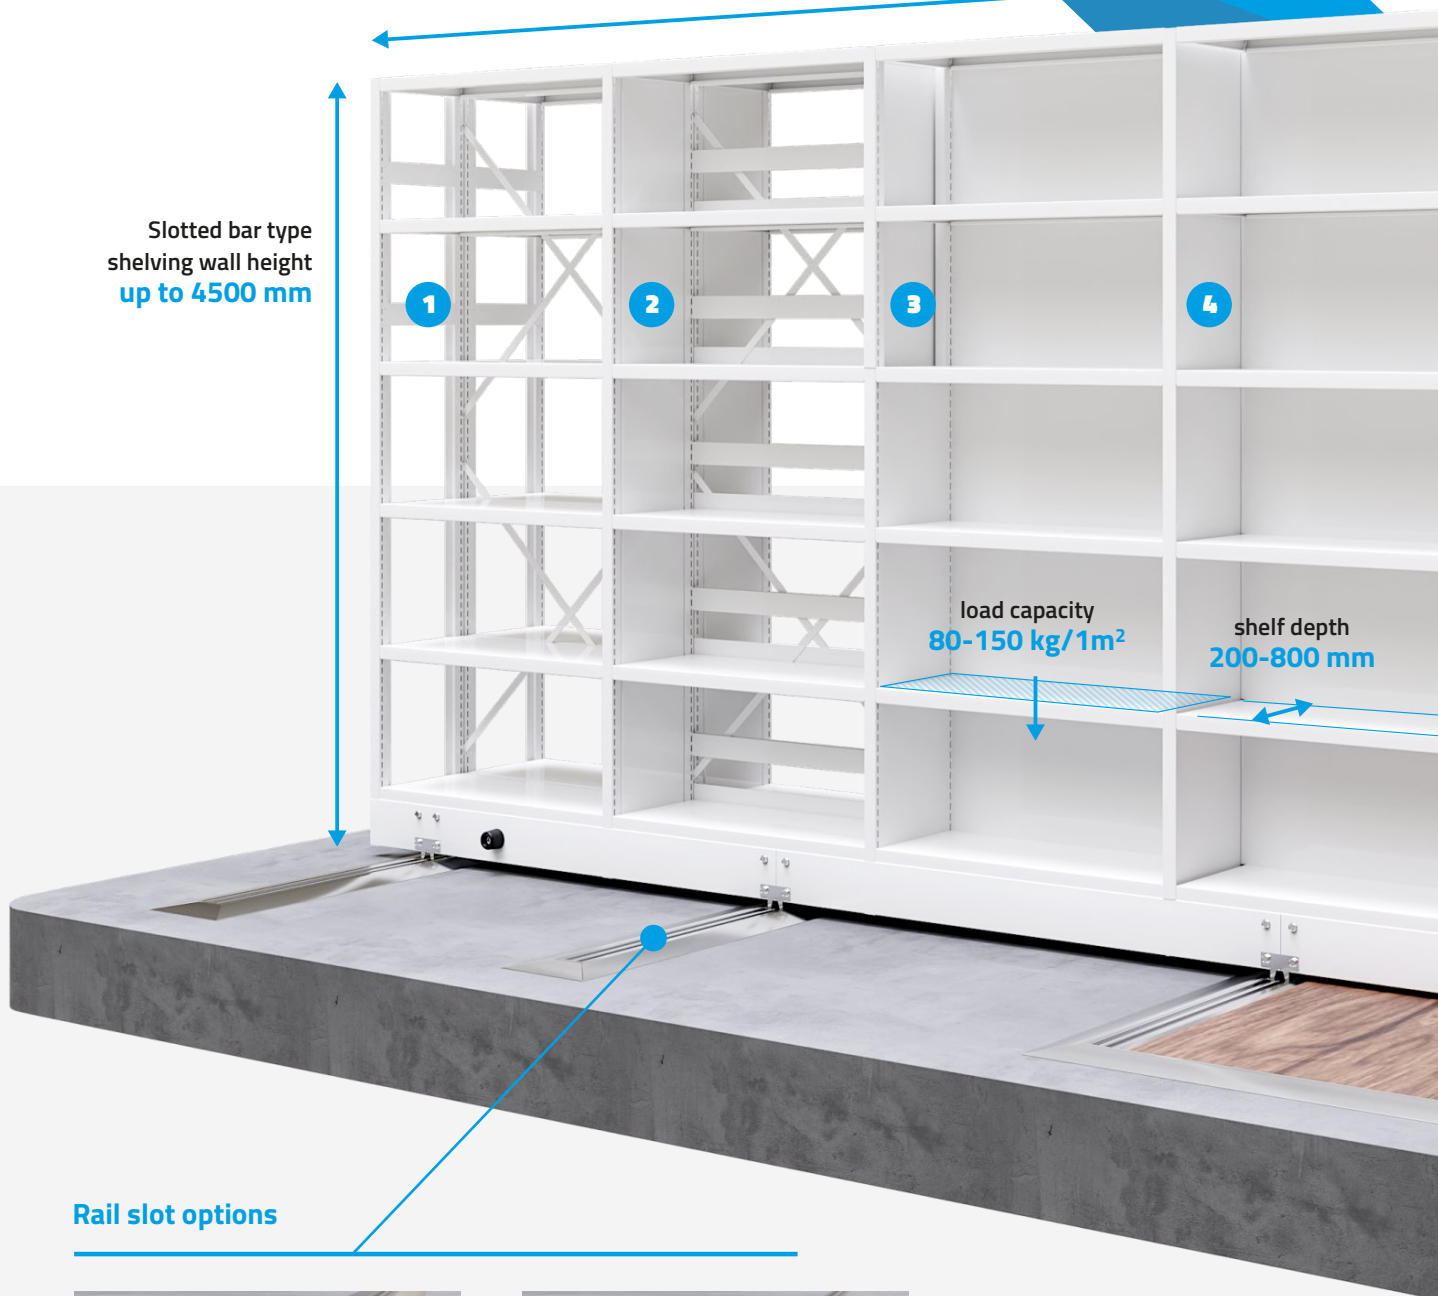

The same interior space furnished exclusively with stationary shelving

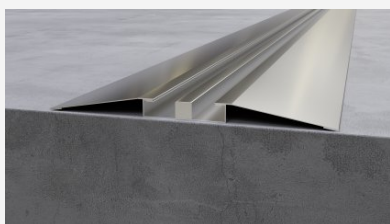

- working length: 4000 mm (4 x 1000 mm racks)
- 2 double stationary racks + 2 single stationary racks
- 6 vertical shelves + cover per section
- 144 running meters of usable space
